

NEW BUY AMERICAN LEGISLATION? MORE LIKE SPRING CITY TRADITION

Build America, Buy America Act (BABAA) is now in effect for federal jobs requiring all iron & steel, construction materials, and manufactured products (including aluminum), to be produced in the United States to qualify for federal funding.

GOOD NEWS

We're already there. Just like the iron and steel provisions of the federal highway rules, Buy American Act, and the ARRA, we have been American made before it was cool.

IRON & STEEL

We're already best-known for our cast iron lampposts made here at Spring City. Just like before, all iron & steel manufacturing from the initial melting stage through the application of coatings, must occur in the United States to qualify for federal funding.

MANUFACTURED GOODS & CONSTRUCTION MATERIAL

Includes non-ferrous metals, plastic and polymer-based products, and glass.

Spring City already utilizes American aluminum in our luminaires and cast poles.

Additionally, we use American made acrylic & glass globes, fitters, and panels for our luminaires.

LOOKING AHEAD

These requirements are expected to increase in the coming years. As an American manufacturing company, you can expect Spring City to meet all upcoming requirements and continue promoting the spirit of American manufacturing just as we have been for the past 180 years.

Quality Craftsmanship, American Tradition, Modern Lighting Technology And The Employees Who Manufacture Them Define Spring City's Products
