

SPARK

A COLLECTION OF PROJECTS TO INSPIRE

Quality Craftsmanship

Since 1948, Spring City has supplied lighting nationwide from the grounds of The United States Capitol to the main street of Disney World as well as the campuses of many colleges and universities. We combine old fashioned craftsmanship with modern technology, enabling our engineers to incorporate the latest ideas using our state-of-the-art CAD, CAM and CNC equipment. The technological advances in our newest product lines are in the best interests of the industry, environment, and our clients.

Our company adheres to the requirements of the iron and steel provisions of the federal highway rules, Buy American Act, as well as the iron, steel and manufactured goods in the American Recovery and Reinvestment Act, ARRA. Tours of our historic facility are available upon request. Spring City looks forward to working with you – call us today to discuss the plans you're developing!

San Antonio Luminaire | **Regency** Cast Ductile Iron Pole
Florida, United States

World Equestrian Center – Ocala

The World Equestrian Center located in Ocala, Florida is the largest equestrian complex in the United States. It includes everything from indoor and outdoor arenas to onsite lodging and shopping. Decorative street lighting is used to illuminate the various paths, courtyards, and meeting areas around the campus to create both a professional and welcoming environment

McKinney

Washington 118 Globe Luminaire | **The McKinney Wall Bracket Bracket** | **Washington Light Post**
Texas, United States

McKinney, TX, only 45 minutes outside of Dallas, is home to vibrant historical downtown, complete with lush landscaping and plenty of activities. Strolling through Historic Downtown McKinney you'll find beautiful historical buildings, fresh cuisine, and local stores. As the sun sets and the moon comes alive, the whole area is illuminated by the warm glow of Spring City luminaires. Spring City worked with local officials to provide the town with a unique, but multi-functional design that allows string lights to be attached for festivals but still have crossarm mounted acorn luminaires.

Rollins College

Yorktown Dark Sky Luminaire | **Vineyard Single Wall Bracket** | **William and Mary Luminaire**
Florida, United States

Rollins College is setting a new standard for college living with their Lakeside Neighborhood. Centering around community and personal wellness it offers lavish student apartments along with outdoor meeting areas, and a pool. Spring City's Yorktown and William & Mary dark sky luminaires line the living space near the pool and on the outside areas of the dorm. The dark sky luminaires eliminate up-lighting around both the dorms located on the second and third level, but also help reduce the overall light pollution in the area. They truly retake the night.

Custom Luminaire and Cross Arms
Florida, United States

City of Celebration

Originally founded by the Walt Disney Company in 1996 as the ideal concept of “New Urbanism” the community is now entirely privately owned properties. It maintains a small town feel with plenty of walking paths, trails, brick lined streets and bakeries while being close to most amenities from food to medical. Spring City custom Disney A1, A2, and B1 decorative luminaires with A2 cross arms line the town providing a well-lit and safe atmosphere with a colorful and playful powder coated paint.

Heritage Park

Washington 199 Globe Luminaire | Northampton Decroitive Light Post | Newburyport Bollards
Texas, United States

Located in Irving Texas, Heritage Park invites people of all ages to remember and reminisce upon the past with historical buildings, trains, and a water tower. The park also includes a picnic area, playground, stage, and large-scale video screen! Spring City worked with local officials to provide the park with historical lighting assemblies, wall mounted luminaires, and decorative bollards to match the atmosphere of the park.

Michigan State Capitol

Michigan Luminaire | **Mariner** Lamp Post | **Michigan** Bollards
Michigan, United States

Spring City was able to craft historically identical new poles, wall brackets and luminaires along with new, custom-designed bollards. It all starts with coordination between the client and Spring City to collect reference materials, research, and in this particular instance, samples. The original wall bracket, pole, and luminaire were shipped to Spring City and were utilized to create historically identical 3D renderings for new tooling.

Customized Quality Hill *Luminaire*
Massachusetts, United States

Anderson Memorial Bridge

The Anderson Memorial Bridge sits on the site of the “Great Bridge” built in 1662, the first bridge to cross the Charles River. During the 2016 rehabilitation project, MassDOT turned to Spring City to provide custom luminaires to suit their needs. By combining both pre-existing tooling and custom banding Spring City was able to create a one-of-a-kind luminaire to complete the project.

Victory Park

Center City District *Luminaire*
Texas, United States

Located in downtown Dallas, Victory Park is home to the American Airline Center, the House of Blues, Katy Trail, and unique shopping opportunities. Spring City worked with Victory Park to provide the area with modified Center City District luminaires that include a door to allow access to manual dimming features. The luminaire is also equipped for use with wireless controls.

Fore River Bridge *Luminaire*
Massachusetts, United States

Fore River Bridge

The Fore River Bridge spans the Fore River between Quincy and Weymouth, Massachusetts. You can find custom-made Spring City luminaires designed by the prominent lighting designer, Domingo Gonzalez, flanking both entrances of the bridge. Spring City worked with massDOT officials to provide this custom lighting solution for their bridge.

Washington YS11 Globe *Luminaire* | **Washington 16** *Light Post*

Washington D.C., United States

Key Bridge

The Francis Scott Key Bridge, or better known as the Key Bridge, is the oldest surviving bridge crossing the Potomac River. Named after the man who wrote the lyrics to the Star-Spangled Banner, this bridge was added to the National Register of Historic Places in 1996. During the 2014 rehabilitation Spring City Washington lampposts and Washington 118 Globe high efficiency LED luminaires painted in the iconic aquamarine coloring were added to relight this historic bridge.

Ennis

Clearwater Luminaire | Newburyport Lamppost
Texas, United States

Ennis, TX : Located just 25 minutes south of downtown Dallas, Ennis offers a wide variety of activities. From shopping, eating, to exploring the many other attractions, the historic Ennis downtown district is a Texas treasure. When Spring City teamed with the town to redevelop the downtown streetscape, the priority was to maintain the historic aesthetics, while integrating performance. With our high performing LED's, Spring City was able to eliminate street clutter and allow for a more visually appealing downtown!

Port Jefferson

Jefferson Luminaire
New York, United States

Located in New York, Port Jefferson started as a small community until its development as a prominent shipbuilding center. Today, you can see this historical past by visiting the nonprofit Theater Three or exploring the Maritime Explorium to find out more about the rich maritime history. The Bridgeport and Jefferson Steamboat Company is also a diamond in the rough for those looking to travel upstate New York or to Connecticut! Spring City worked with local officials to light this historic community utilizing the historical coach lanterns with high performance LEDs. The luminaries matched the preexisting town design to retain their traditional lighting.

Augusta Dark Sky *Luminaire* | **Campus Plaza Smooth Straight Shaft** *Light Post*
Texas, United States

Central Social District, Van Alstyne

When the City of Van Alstyne wanted lighting for their new city venue they turned to Spring City for their decorative Dark Sky LED luminaires and lamp posts. The Central Social District features a stage and festival area along with a splash pad and a playground area!

San Marcos, Hopkins Street

Lechmere Radial Wave Luminaire | **Lexington** Crossarm | **Hancock** Light Post
Texas, United States

Due to the explosive population growth the City of San Marcos realized they had a need for a new streetscape. This improvement project gave a complete overhaul to Hopkins Street adding drainage, new water structures, along with curbs & sidewalks. Our ability to create custom products made Spring City the top choice to provide the lighting assemblies. A custom radial shade was used for this job along with a Lexington cross arm and a Hancock pole.

Pearl River

Quality Hill Luminaire | Columbia M6 Pendant Luminaire
New York United States

The hamlet of Pearl River is located in the Town of Orangetown, NY and is the definition of an All- American hometown. Despite the name, there are no significant bodies of water nearby as the surrounding area primarily consists of woods! Spring City worked with the NYPA on a town relighting project to add new high efficiency LED luminaires and match the current unique blue-green street lighting colors.

Fort Worth *Luminaire*
Texas, United States

Dickies Arena

In 2014, citizens of Fort Worth voted for the construction of a multipurpose arena that would serve as a place to host all sorts of events within the community. After many groups of people came together to pioneer the project, the arena saw its first concert in November of 2019. Spring City's Fort Worth LED Luminaire complements the modern architecture while also providing ample lighting and a nice ambiance to the surrounding area through a mix of both wall mounted and post top styles.

Spring City Electrical Manufacturing Company

One South Main Street

Spring City, PA 19475
