

LONE STAR SPOTLIGHT

A COLLECTION OF TEXAS LOCATIONS TO INSPIRE

2022

Manufactured in the USA

Founded in 1843, Spring City remains headquartered in Spring City, PA at their original foundry. Spring City's operations are all located within one facility, consisting of a productive foundry, innovative engineers, a passionate sales force, and industry experts committed to providing you unparalleled customer service. Together, our team is constantly challenging competitors in the market with our innovative LED products that are always evolving to achieve industry leading performance.

Our unmatched products are cast on-site, ensuring utmost quality control and on-time deliveries. Our team will provide you with continuous communication throughout your project progression and will coordinate with project contractors to ensure a successful installation.

Throughout Spring City's 166 years of operation, our collection of superior patterns has grown to more than 6,000 molds. These patterns construct the products within our site, as well as products available via special request.

Fort Worth *Luminaire*
Texas, United States

Dickies Arena

In 2014, citizens of Fort Worth voted for the construction of a multipurpose arena that would serve as a place to host all sorts of events within the community. After many groups of people came together to pioneer the project, the arena saw its first concert in November of 2019. Spring City's Fort Worth LED Luminaire compliments the modern architecture while also providing ample lighting and a nice ambiance to the surrounding area through a mix of both wall mounted and post top styles.

Central Arlington

Arlington Luminaire | **Washington** Light Post
Texas, United States

When the City of Arlington TX designed the revitalization of Central Arlington, the goal was to create an atmosphere that was both trendy and timeless. The clean, classic aesthetic profile of the Arlington LED, combined with the performance of the Symphonic LED, creates the perfect complimentary look the trendy cityscape both night and day.

Located near Dallas Texas, the City of McKinney hosts a luscious landscape both in and out of the city. The city turns a spotlight on the environment featuring beautiful trees lining the downtown. The surrounding area also features both farmland and trails to explore. Spring City worked with Kimley-Horn and Architectural Lighting Alliance to light the historic downtown using our Washington lighting assembly.

McKinney

Washington 118 Globe Luminaire | **The McKinney Wall Bracket** | **Washington Light Post**
Texas, United States

Clearwater Luminaire | **Newburyport Lamppost**
Texas, United States

Ennis

Ennis, TX : Located just 25 minutes south of downtown Dallas, Ennis offers a wide variety of things to do from shopping in their historic downtown district to exploring their many other attractions. When Spring City teamed with the town to redevelop their downtown streetscape, it was a priority to maintain the historic aesthetic that they were bringing back to life. With our high performing LED's, we were able to eliminate street clutter and allow for a more visually appealing downtown!

Victory Park

Center City District *Luminaire*
Texas, United States

Located in downtown Dallas, Victory Park is home to the American Airline Center, the House of Blues, Katy Trail, and unique shopping opportunities. Spring City worked with Architectural Lighting Alliance to provide the area with modified Center City District luminaires that include a door to allow access to manual dimming features. The luminaire also equipped for use with wireless controls.

Located in Irving Texas, Heritage Park invites people of all ages to remember and reminisce upon the past with historical buildings, trains, and a water tower. The park also sports a picnic area, playground, stage, and large-scale video screen! StudioOutside and Architectural Lighting Alliance worked to provide the park with Spring City products including historical lighting assemblies, wall mounted luminaires, and decorative bollards to match the atmosphere of the park.

Heritage Park

Washington 199 Globe Luminaire | **Northampton Light Post** | **Newburyport Bollards**
Texas, United States

Augusta Dark Sky Luminaire | **Campus Plaza Smooth Straight Shaft Light Post** *Light Post*
Texas, United States

Central Social District, Van Alstyne

When the City of Van Alstyne wanted lighting for their new city venue they turned to Architectural Lighting Alliance and Spring City for their decorative Dark Sky LED luminaires atop a decorative lamp post. The Central Social District features a stage and festival area along with a splash pad and a playground area!

Rowlett

Edgewater Medium Luminaire | **Campus Plaza Light Post**
Texas, United States

Located in the quieter suburbs of Dallas, Rowlett offers big city amenities with a more relaxing lifestyle. Bordering Lake Ray Hubbard gives residents plenty of watersport activities along with numerous parks. When One90 chose this ideal location for their new luxury apartment building they turned to Architectural Lighting Alliance and Spring City for their decorative lighting assemblies. A stylish Edgewater luminaire paired with a campus plaza pole perfectly fit their needs by combining both historical decoration and modern technology.

Welcome to Colleyville, Texas! Located only 20 minutes away from the Dallas/Fort Worth Airport, the town offers a variety of activities to see and do! Families can soak up the sun and play in the Chisholm Park or go shopping in the historical downtown Grapevine. It's also worth seeing the Grapevine Botanical Gardens or Colleyville Nature Center for a relaxing and scenic stroll. Spring City worked with Architectural Lighting Alliance and Mesa Design Group to provide Colleyville with a full lighting assembly to light their roads with our high-performance LED decorative pendant luminaires.

Colleyville

Exton M1 Luminaire | **Coral Way** Cross Arm | **Cambridge** Lamppost
Texas, United States

San Antonio Custom Luminaire | **Washington** Light Post
Texas, United States

University of Texas Arlington

The University of Texas Arlington sought to relight their campus while continuing to match their current standard. Spring City worked with Architectural Lighting Alliance to provide a solution using a modified San Antonio luminaire to match their pre-existing fixtures along with a Washington pole.

Hopkins Street

Lechmere Radial Wave Luminaire | **Lexington** Crossarm | **Hancock** Light Post
Texas, United States

Spring City Electrical partnered with Architectural Lighting Alliance and Freese & Nichols, Inc to provide lighting for the Hopkins Street improvement project. This project gave a complete overhaul to Hopkins Street adding drainage, new water structures, and added curbs and sidewalks. A custom radial shade was used for this job along with a Lexington cross arm and a Hancock pole.

Located right outside Fort Worth. Mansfield, Texas is a treasure trove of outdoor activities from various parks and gardens to heritage & historical centers. The Elmer W. Oliver Park is one of the best parts of Mansfield and allows you to explore the outdoors through various activities and is home to many native wildflowers! Spring City worked with Architectural Lighting Alliance to provide the city with a full lighting assembly to light their historic main street with our high-performance LED decorative luminaires and lamp posts.

Mansfield

Reading Luminaire | **Washington Lamppost**
Texas, United States
